IN THE CLAIMS

Please amend the claims as follows:

Sub D17
Ex

1. (Twice Amended) An apparatus for packaging goods in a box, comprising:
 - (a) a box erecting apparatus for erecting a box to receive at least one good;
 - (b) an elevator lift apparatus operatively connected below the box erecting apparatus, the elevator apparatus having a first position and a second position wherein the elevator lifts the at least one good from the first position to the second position; and
 - (c) a support mechanism operably positioned relative to the box erecting apparatus wherein the support mechanism receives the at least one good after the elevator lifts
